Problem

AI tools cannot integrate with online communication channels and social media tools lack capabilities

- Manual copy-pasting for every interaction
- Impossible to handle real-time communications
- Loss of context between conversations
- LLM Models are not optimized for communication

Solution

Vertical Agentic AI for online communication

- Direct access to platform content and conversations
- Intelligent processing of context and relationships
- Real-time response generation at scale
- Memory of all interactions and history

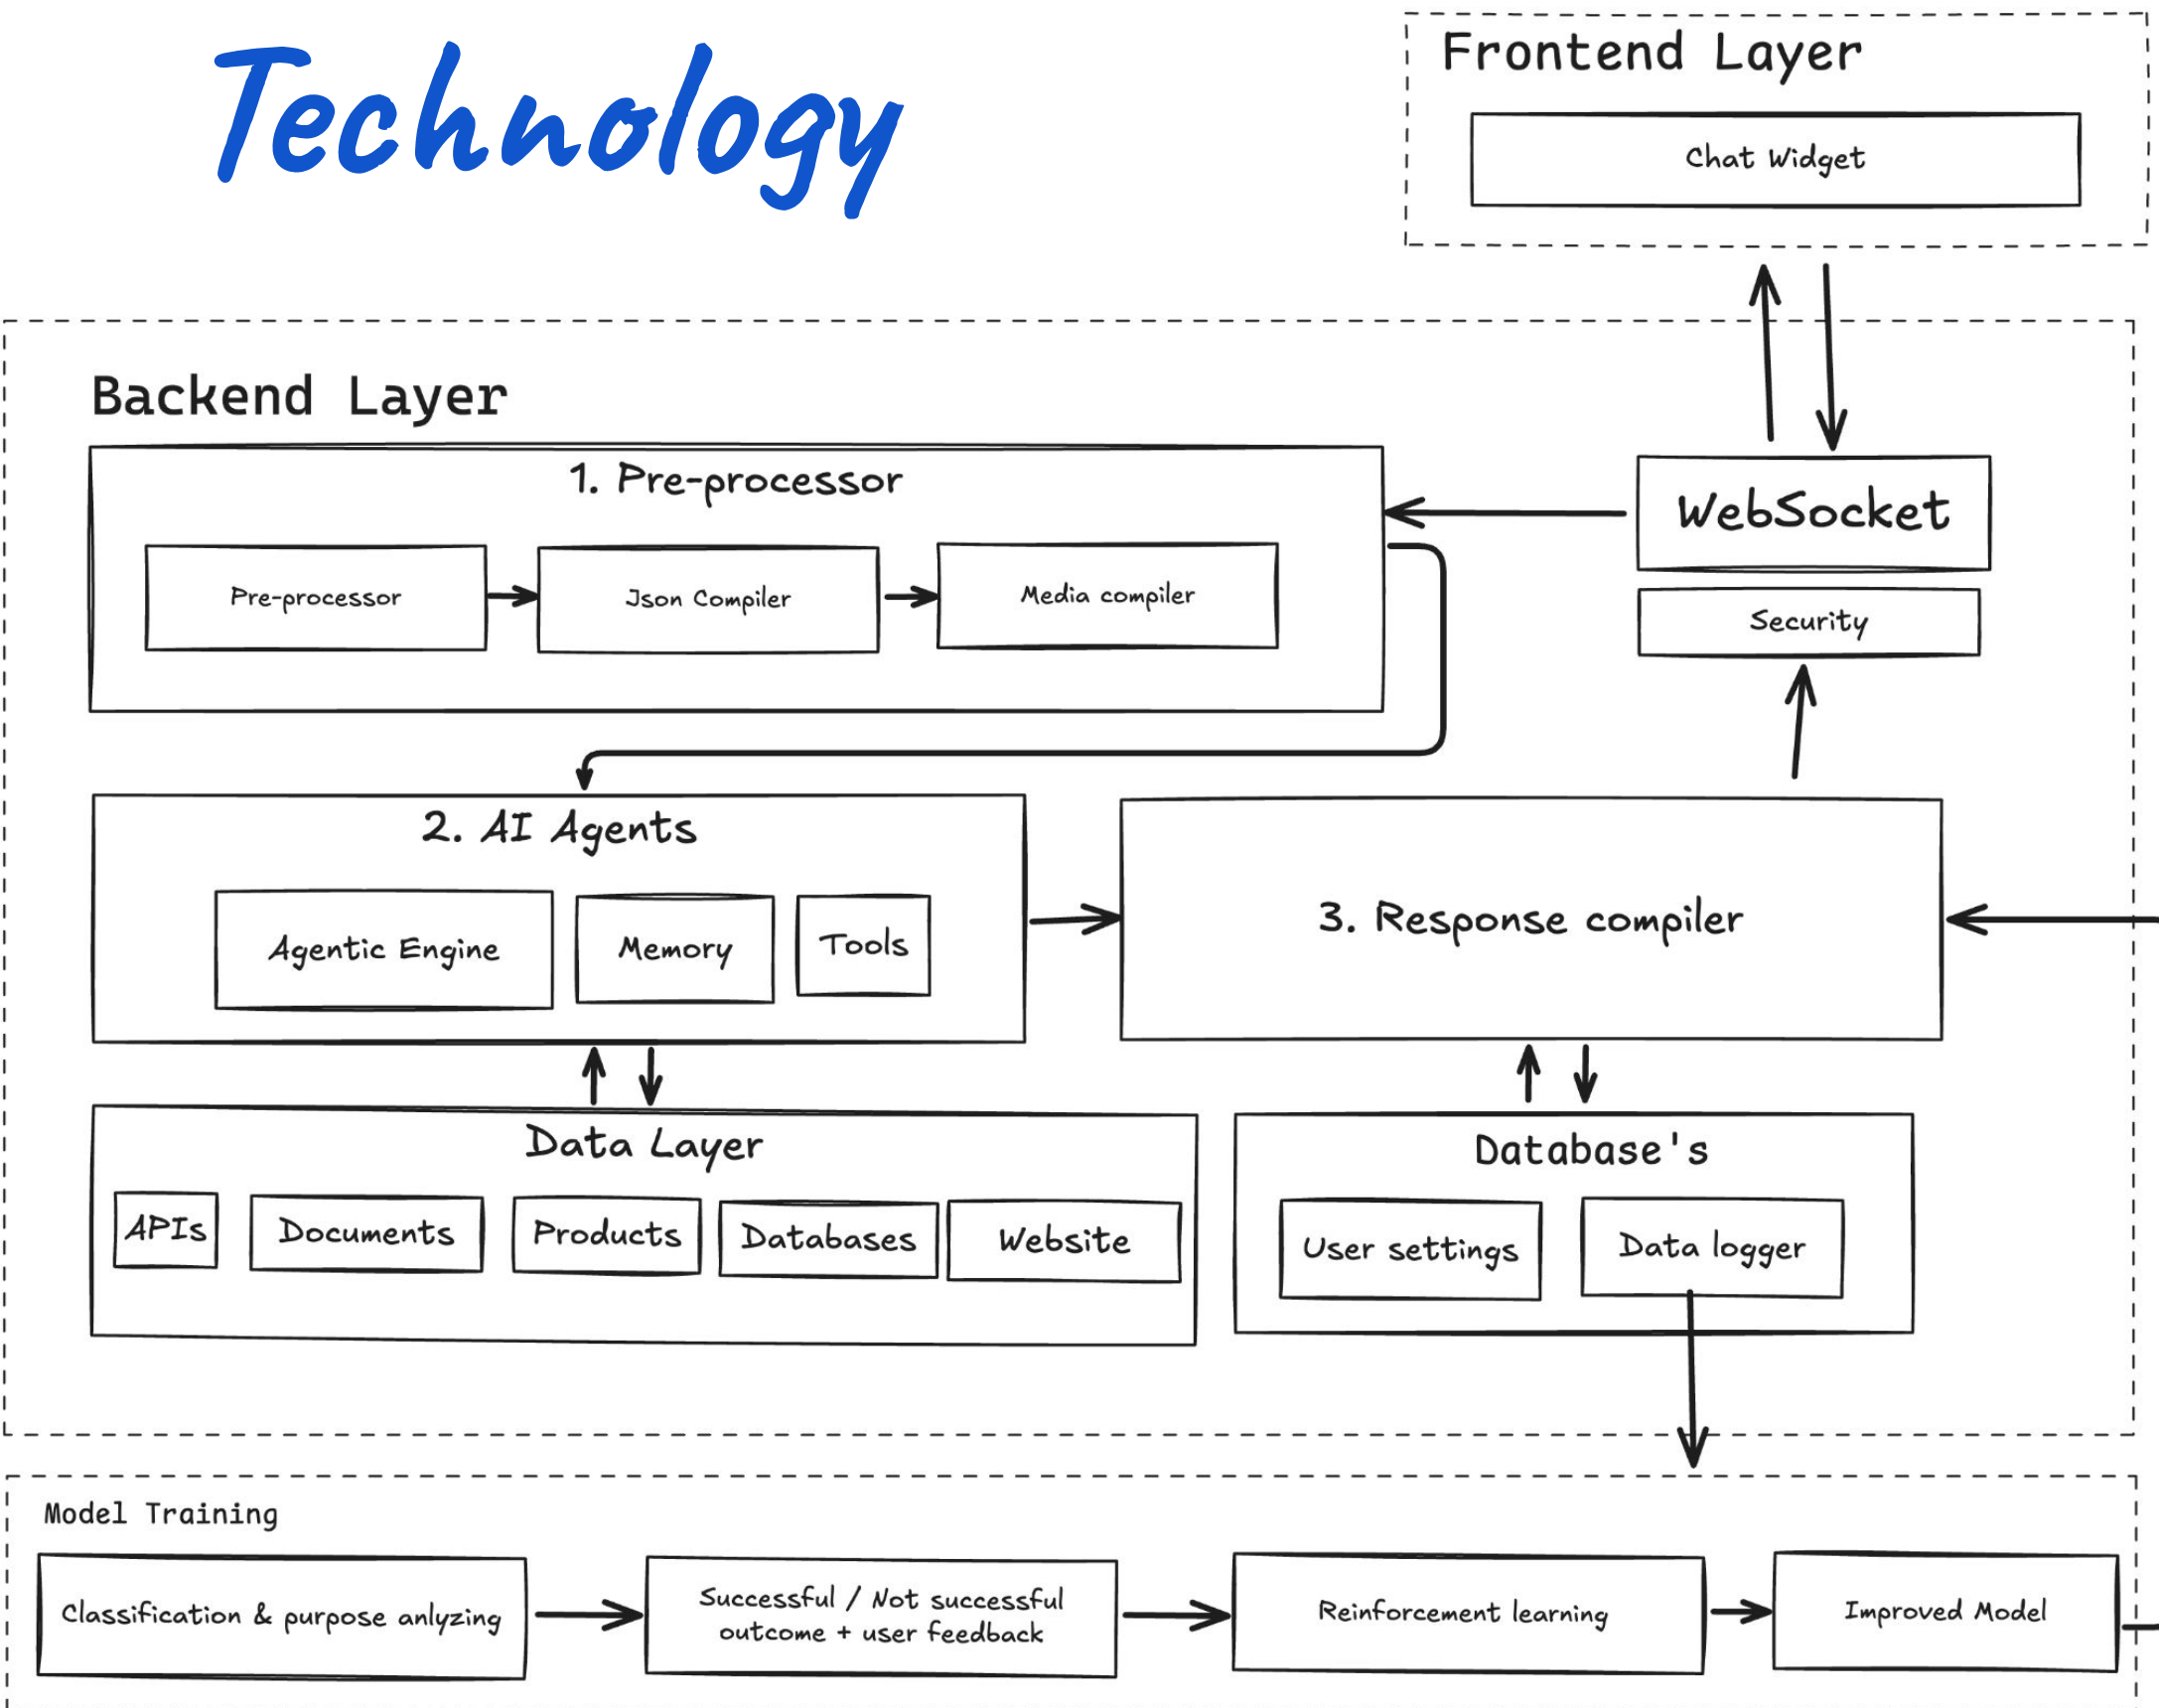

Market Overview

Feature/Capability	 ReplyPilot	 ChatGPT  Claude  perplexity	 sproutsocial  m  agorapulse  buffer  Hootsuite
Access to messages:			
Access to comments:			
AI / Agentic AI:			
Full Context:		Manually	
Memory of Interactions:			
Integration:	Works out of the box	Manual copy / past	Requires API credentials
*Optimized AI for Communication:			

*Optimized AI for Communication: Purpose trained / tuned LLM models for communication

Technology

1. Pre-Processor (AI driven):

- Pre-processes data to reduce load with 90%
- Process data into structure data (JSON)
- Processes Images / videos into text

2. AI Agents (AI driven):

- Analyses context of incoming Json
- Real-time agent orchestration
- Dispatches jobs to agents
- Compile data loads from agents

3. Response compiler (AI driven)

- Takes Data + Instructions + Params
- Compile the final response

4. AI Models

- OpenAI / Google SOTA Models integrated
- In process of training DeepSeek-v3 R1
 - This means we will own vertical conversational model's and 100% IP

Market entry

Our first product solves a decade long problem..

- Understand and answer business inquiries
- Connects to business data
- Encapsules brand voice & communication
- Not dependent on any API's

Enterprise Solution

Timeline

Q1 is all about moving fast to position ourselves to raise seed beginning of Q2

- Rapid iteration and deployment cycles
- Integration of Messaging channels
- Big name Pilots and close first B2B clients
- Raise Seed round early Q2

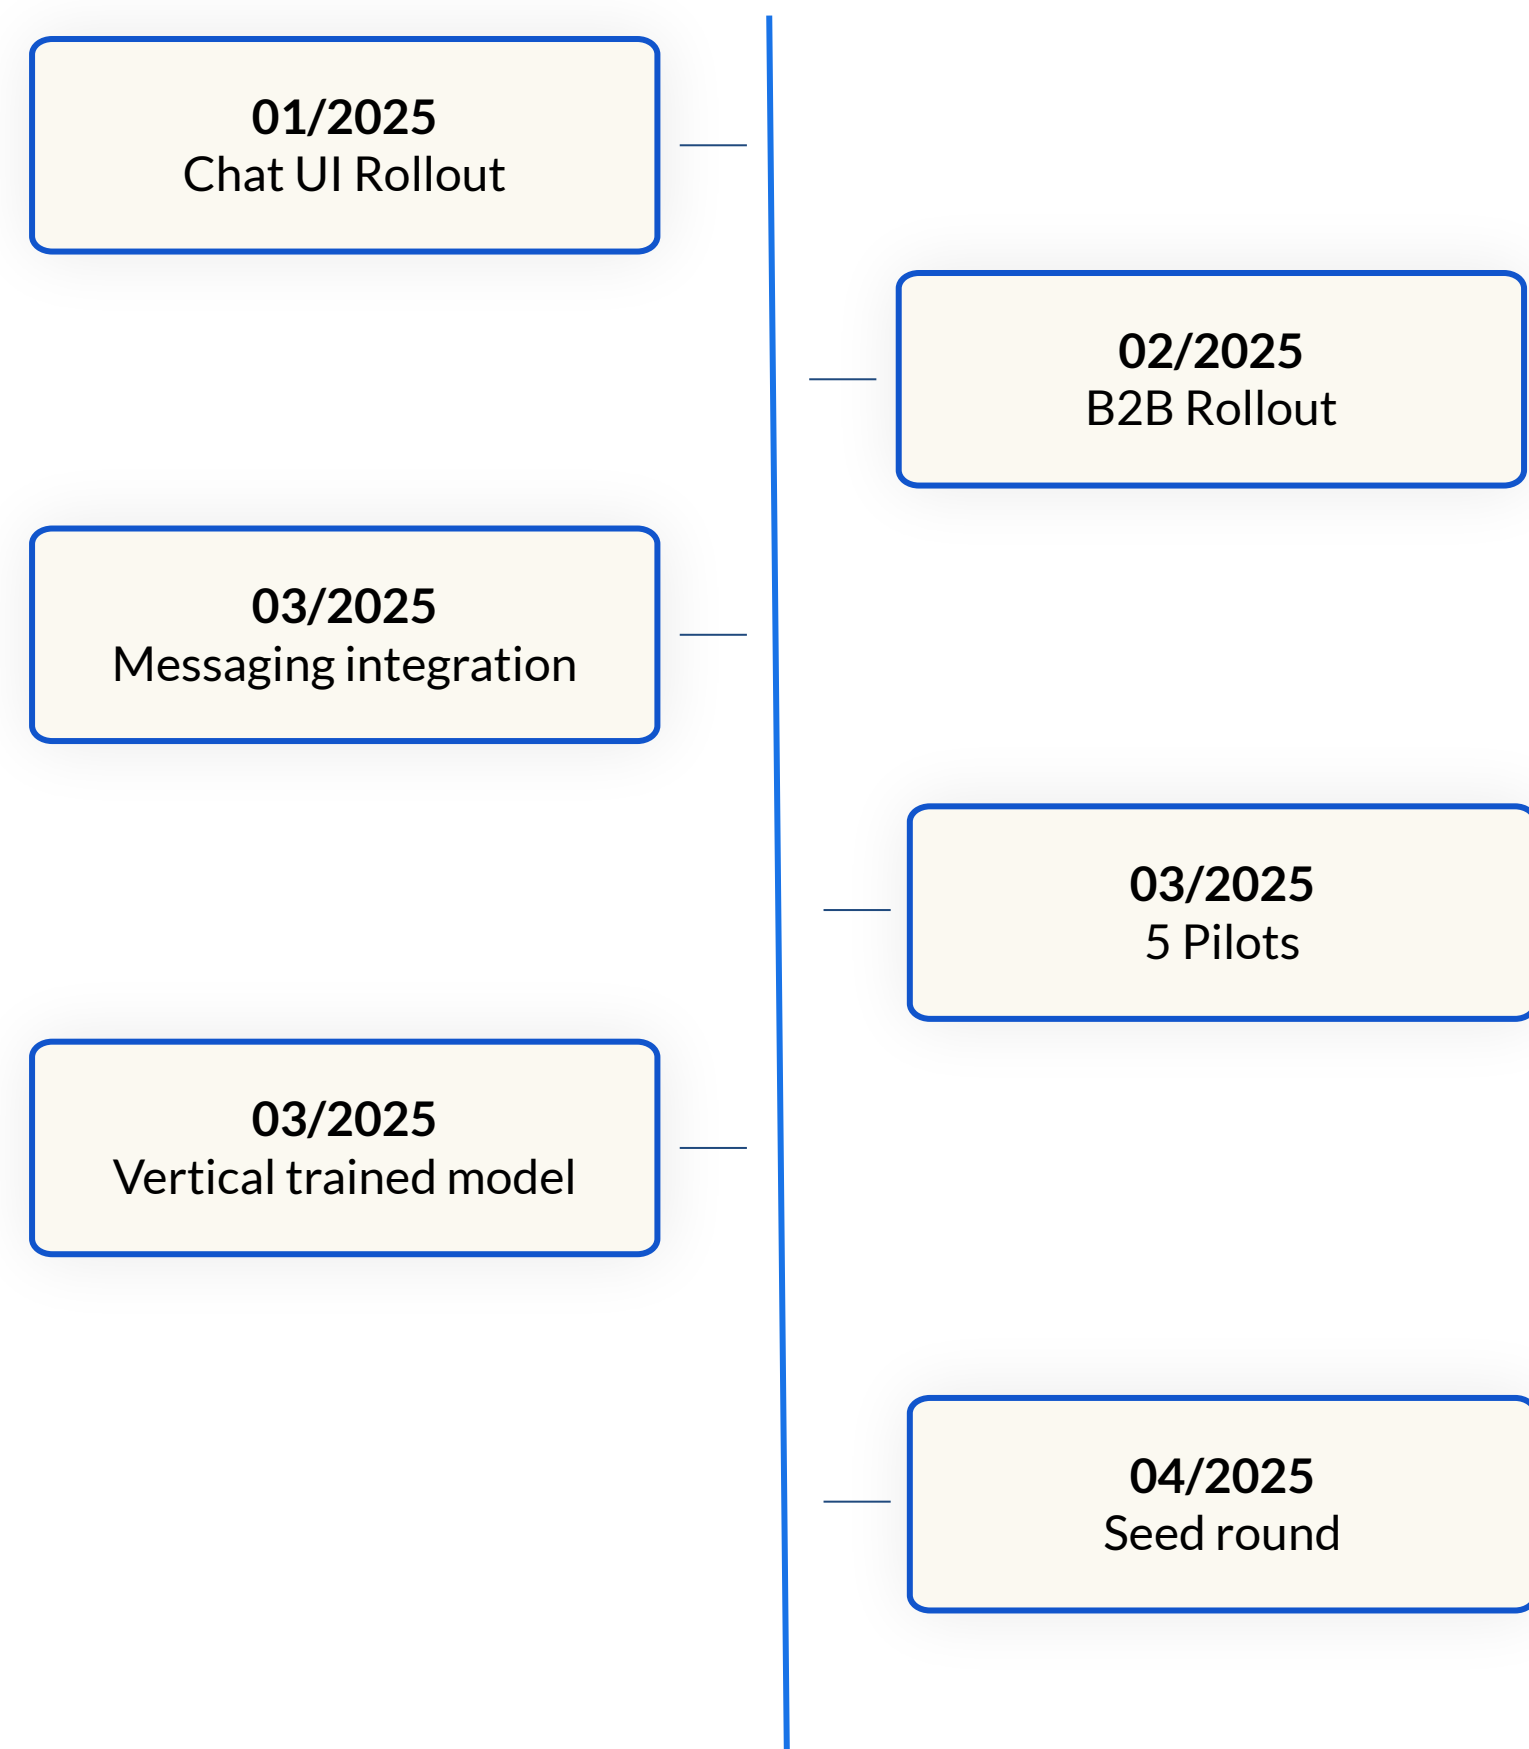

From early soft launch in November we can see MoM

Gross volume: +197%

Net Volume: +587%

Spend per customer: +147%

Users: +300

THANK YOU!
